EXPORT PRODUCT CATALOG — RICE (NON-BASMATI)

Export Category: Rice (Non-Basmati Varieties)

Origin: India | **Quality Assurance:** 100% Sortex Cleaned, Well-Milled & Hygienically Processed.

This specification document details technical quality parameters and export packaging standards for international trade.

1. IR-64 Parboiled Rice

One of the most popular long-grain Non-Basmati export rice varieties globally. Hydro-thermally processed (parboiled) to preserve nutrients, resulting in firm, non-sticky grains with high cooking efficiency.

Parameter	Specification Value
Average Grain Length	6.00 mm – 6.20 mm Min
Moisture	13.0% – 14.0% Max
Broken Grain	5.0% Maximum
Damage / Discolored Grains	1.5% Maximum
Foreign Matter	0.5% Maximum

Key Features: **5% Broken** **Sortex Cleaned** **High Nutritional Value**

2. IR-64 Raw Rice

A long-grain white raw rice variety widely consumed across African, Asian, and Middle Eastern markets. Well-milled, clean, and ideal for daily culinary consumption and commercial food service.

Parameter	Specification Value
Average Grain Length	6.00 mm – 6.10 mm Min
Moisture	13.0% Maximum
Broken Grain	5.0% Maximum
Chalky Grains	5.0% Maximum
Milling Grade	Well Milled & Double Polished

Key Features: **White Long Grain** **5% Broken** **Double Polished**

3. PR-11 / PR-14 Rice (Raw / Steam / Parboiled)

A premium long-grain Non-Basmati variety often preferred as an economical alternative to Basmati due to its attractive slender look, good cooking elongation, and pleasant flavor.

Parameter	Specification Value
Average Grain Length	6.80 mm – 7.00 mm Min
Moisture	12.5% – 13.0% Max
Broken Grain	2.0% – 5.0% Max
Damage / Discolored	1.0% Maximum

Available Processing: **PR-11/14 Raw** **PR-11/14 Steam** **PR-11/14 Parboiled**

4. Sona Masoori Rice (Raw / Steam)

A lightweight, aromatic medium-grain rice prized for its low starch content and easy digestibility. Exceptionally popular in South Asian communities and healthy dietary markets worldwide.

Parameter	Specification Value
Average Grain Length	5.00 mm – 5.20 mm Min
Moisture	13.0% Maximum
Broken Grain	2.0% Maximum
Purity	95% Minimum

Available Processing: **Sona Masoori Raw** **Sona Masoori Steam**

5. Ponni Rice (Steam / Parboiled)

A staple short-to-medium grain variety cultivated in South India, renowned for its delicate texture, high energy value, and superior taste after cooking.

Parameter	Specification Value
Average Grain Length	5.00 mm Min
Moisture	13.0% Maximum
Broken Grain	2.0% Maximum
Damage / Red Grains	1.0% Maximum

Available Processing: **Ponni Steam** **Boiled Ponni**

6. Swarna Rice (Raw / Parboiled)

A short-grain Non-Basmati rice variety widely exported for its high nutritional density, cost-effectiveness, and excellent culinary versatility in bulk consumption.

Parameter	Specification Value
Average Grain Length	5.00 mm – 5.25 mm Min
Moisture	13.0% – 14.0% Max
Broken Grain	5.0% Maximum
Discolored / Damage	1.5% Maximum

Available Processing: **Swarna Raw** **Swarna Parboiled**

7. Broken Rice (100% Broken & 5% / 25% Broken)

Clean, sortex-processed broken rice grains supplied in varying percentages (100%, 25%, 5%). Used extensively for rice flour manufacturing, starch processing, animal feed, brewing, and value food products.

Parameter	Specification Value
Broken Content	100% / 25% / 5% (As per order)
Moisture	14.0% Maximum
Foreign Matter	1.0% Maximum
Color / Grade	White / Parboiled Sortex Cleaned

Grades Available: **100% Broken White** **25% Broken** **5% Broken**

EXPORT PACKAGING & LOGISTICS STANDARDS

Packaging Options:	10 kg, 20 kg, 25 kg, 50 kg (PP / Non-Woven / Jute / BoPP Bags)
Private Labeling:	Customized OEM & Buyer Brand Printing Available
Container Loading:	25 to 26 Metric Tons per 20ft FCL (Full Container Load)
Quality Certifications:	FIEO (RCMC), FSSAI, ISO 9001:2015, Phytosanitary Certificate, Certificate of Origin
Inspection:	SGS / Intertek Third-Party Inspection Available upon Request
